

Telekom Eavesdropping Protection

Protect your business secrets

So you are safe!

Your trade secrets and internal company information are your capital. New developments and strategic orientations arouse the curiosity of third parties, not just competitors. For almost every company, one of the biggest threats is when know-how flows to competitors. Spying on offer documents and prices for orders can be just as serious. The continuous development of miniaturized surveillance electronics is making eavesdropping easier and easier and leading to an incalculable increase in the risk of eavesdropping for companies.

The technology is becoming cheaper and cheaper and can now be purchased by anyone and operated without any technical understanding.

Key Features

- Safeguarding the company's know-how
- Protection of trade and trade secrets
- Maintaining Competitive Advantage

Deutsche Telekom relies on certification by the BSI
