

Domain Name Service for your web address

Benefit from a top service for setting up and managing your web address.

One thing is clear: a noteworthy and prominent web address is a must for companies and brands. Telekom's Domain Name Service ensures that everything runs smoothly, from registration to availability. **Digitization. Simply. Make it happen.**

Your benefits

- All-round service for your domain, from registration to technical support
- Domain address of your choice (e.g., companyname.de)
- Unlimited number of sub-domains (e.g., info.companyname.de)
- Use of existing domains and changing of domain names
- Primary/Secondary Name Service
- Web presence security through Domain Name System Security Extensions (DNSSEC)

Well selected, perfectly managed

Make your company successful on the Internet as well – with a suitable web address for your company name, brand or service. As ICANN registrar (Internet Corporation for Assigned Names and Numbers), we can register addresses with many endings – the so-called Top Level Domains (TLD) – for you. You can choose from country codes (.de, .at, .ch, etc.), generic endings (.com, .org, .info, etc.) or even industry-specific addresses (.consulting, .solutions, .video, etc.).

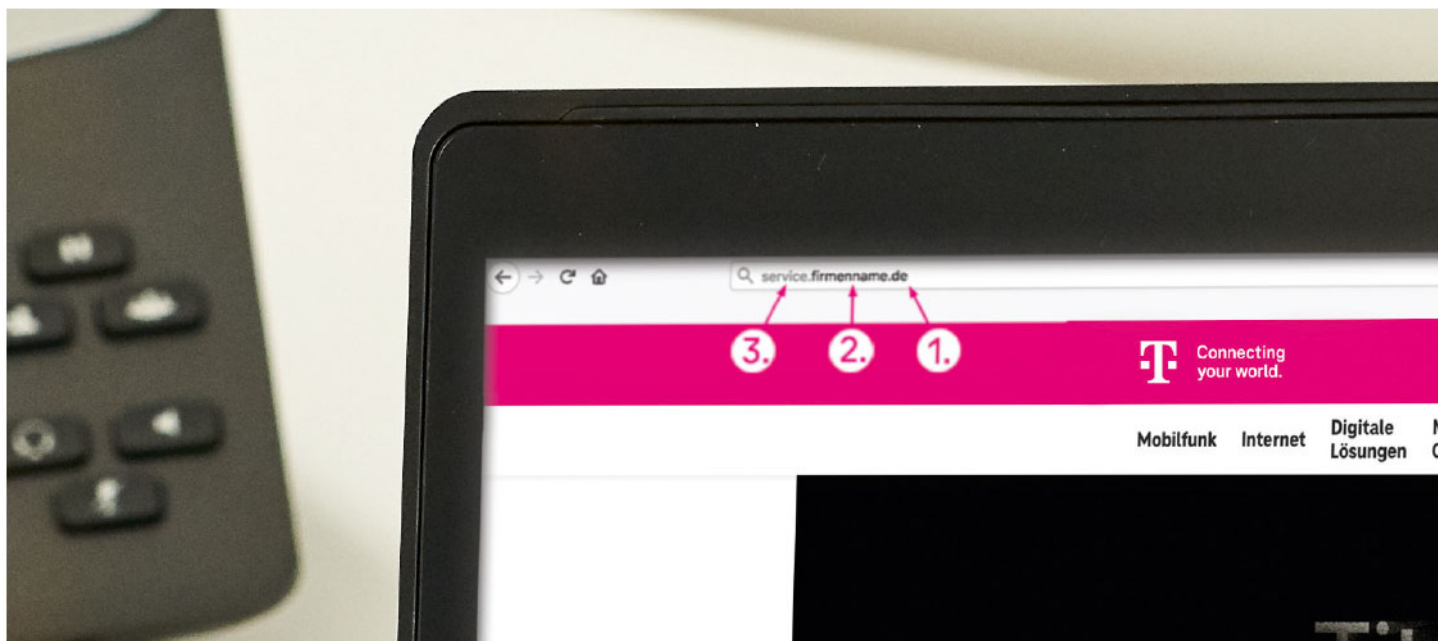

On request, we also provide technical service and ensure that your web address is perfectly accessible when users enter it online. Of course, you only book and pay for the services that you really need.

Connecting
your world.

A web address that can always be accessed securely

Telekom's Domain Name Service

How are domains composed?

A web address is made up of many parts, each separated by a dot. The hierarchy decreases from right to left. Typically, only the components that form top level and second level domains are registered.

1. **Top Level Domain:** mostly country codes, generic and/or industry-specific ending
2. **Second Level Domain:** component that can be freely selected – often company and/or brand name
3. **Third Level Domain/Sub-Domain:** component that can be freely selected; it can be placed either at the start or end of the domain, e.g.,: service.companyname.de or companyname.de/service

What our Domain Name Service offers

Telekom's Domain Name Service include service options that you can choose from – according to your individual needs:

- **Domain registration:** we reserve your desired web address for you and register you as owner.
- **Primary/Secondary Name Service:** we provide technical support for the domain and ensure that users are directed to the right web or email server when they enter your web address.
- **Domain change:** we also manage already registered domains for you – at no additional cost.
- **Domain Name System Security Extensions (DNSSEC):** protection against fraudulent redirection of data traffic from your website through web address data encryption.

Starting at
€ 6,99
 per year*

Extract from our price list:*				
.de	.biz, .com, .eu, .info	.at, .be, .ch, .dk, .es, .it, .nl	.cn, in, .li, .lv, .me	.fi, .pl, .tv, .tw
